Show & Tell

Dick Pleister continues to astound with his two floaty flying land anywhere things.

Mark Polzin put velcro to good use as he taught us how to keep our Radian's wings in flying position in the fuse, demoed a hand warmer for cold weather flying fools, and showed us a piece of plywood with leds all over it that he claims discharges batteries juuuuuust right. Lastly he brought in the new Icon he bought to fly on vacation. Buzzing water skiers and innocent fisher people.
